Deputy: B. GREAVES

Re: LADWP Addition to the City of Los Angeles Water Conservation Plan

Dear council member Huizar,

The Piping Industry Progress and Education Trust Fund representing 14 Plumbers and Pipe fitters local unions and over 500 union contractors supports the attached Resolution known as the "Water Efficiency Requirements for the construction of new buildings and the installation of new plumbing fixtures in existing buildings in the city".

As with the LEED ordinance, the CRA PLA and the Retrofit ordinance, all which are great and progressive public policies that the city has enacted in the last year, your approval of this water conservation ordinance from the LADWP will save water and energy while sustaining and creating good jobs. This is the right thing to do.

We respectfully request your unqualified support of this ordinance as proposed by the LADWP. Thanking you in advance, I remain.

Very truly yours,

Michael T. Massey
Executive Director

PIPING INDUSTRY PROGRESS AND EDUCATION
Trust Fund
