Comments for Public Posting: I support the closing of the gap of the Expo Bike Path Northvale Gap between Overland and Motor. The navigation indicators doesn't offer enough protection for those on bikes, scooters, and regular pedestrians passing by Palms and Rancho Park into downtown or Santa Monica. We will be closer to creating a safe network of bikeways for travelers using active transportation by completing the connection. If more of these cycling lanes are implemented it will help encourage people to travel and commute by other modes of transport than by private vehicle, all while creating a safer and cleaner place for citizens and visitors.
