Dear Councilmembers Huizar, Reyes and Koretz,

We want to join the coalition of voices in our neighborhood in support of the preservation of the historic Century Plaza structures and grounds. The July 31, 2009 letter (as clarified on August 3, 2009) submitted by Strawn and Richard Rosenthal especially eloquently and thoughtfully explained the significant and ample historical context of the buildings. As an officials responsible for help determining the larger role of our neighborhood in the city, state and country, we hope you will considered the larger context of theses decisions. Your decisions determine the image and legacy we want for our city. These decisions involve more that reviews of EIRs and occupancy rates.

Please honor the wishes of many surrounding neighborhoods and the history and legacy of our city by opposing the destruction of this beautiful and meaningful landmark.

Thank you in advance for your consideration, Randee and Richard Motzkin
