Los Angeles, Ca 90012

Council Member, District1 Reyes:

So many of us Los Angeles residents, your constituents, rely on a wireless network to stay connected at home, at business, and on the go, which is why I am writing to urge you to continue to support AT&T's efforts to invest in the wireless infrastructure in our city. Supporting critical upgrades to LA's wireless infrastructure will improve wireless connectivity and reliability as we commute, work and play-and will even improve the speed and reliability of critical communications in the event of an emergency.

Please support a more connected Los Angeles!

Thank you.

Sincerely,

Veronica Salazar

Los Angeles, CA 90032

Council Member, District1 Ed Reyes
200 N. Spring Street
Rm. 410
Los Angeles, Ca 90012

Council Member, District1 Reyes:

I read in the newspaper that companies like AT&T and Verizon are having a hard time keeping up with growing demand for wireless service and are constantly upgrading their networks to keep up. I also heard that the City Council is considering adopting an ordinance that governs how wireless companies like AT&T and Verizon make upgrades to their networks.

I depend on wireless all day everyday to do just about everything. I am a constituent and pay my taxes and deserve much better wireless coverage in a vast city like LA. I use wireless to be as efficient as possible without having to drive everywhere. My service definitely needs to improve since many times I am not able to complete a transaction due to lack of coverage or a bad signal.

So please consider that many people like me are relying on you to work with the wireless providers to bring us better wireless service as soon as possible.

Sincerely,

Madeline Marano

Council Member, District1 Reyes:

Dear City Council Member:

Patrons of LA restaurants, shops, and other businesses are big users of the mobile web on their mobile devices. Customers use mobile apps on their mobile devices to get directions, make reservations, or do research. But it's annoying and inconvenient for businesses and their patrons when signals fade and calls get disconnected.

We need better, more reliable wireless coverage for LA patrons and businesses. Please support policies and rules that bring better wireless coverage as quickly as possible.
Thank you.

Los Angeles, Ca 90012

Council Member, District1 Reyes:

I recently heard that the City Council will adopt new rules for how wireless companies build cell towers and antennas. That is probably needed but only if it does not get in the way of bringing better wireless service as quickly as possible. Technology has advanced so much that we shouldn't have to experience dropped calls or slow download speeds. But that happens too frequently in LA.

So, please, as you consider the new rules that will be imposed on the wireless companies, think about us, the residents of the City , who don't want to wait any longer for better wireless service.

Thank you.

Sincerely,

Paul Watkins

As someone who lives and works in Los Angeles, I write to ask that you do what you can to facilitate better broadband coverage as soon as possible. Like many other residents, I rely on wireless services to stay in touch with my family, friends and take care of important matters daily. Unfortunately, my calls are often dropped on my route home from work in Santa Monica to my home in the South Bay. This is an issue of increasing concern to me as the number of mobile subscribers steadily rises, placing enormous demand on our already strained wireless networks. Compared to the other major cities across the U.S. that I've lived in and visited, LA easily has the worst connectivity of all, which should be unacceptable considering the number of consumers and businesses in the city that utilize mobile technology. My service definitely needs improvement, so please do what you can to support better broadband connectivity!

Thank you.

Council Member, District1 Reyes:

I write in support of improving wireless networks throughout LA. Residents and businesses throughout the city, including me, need to have a stronger, more reliable wireless network with fewer dropped calls. In a vast city like LA, improved cell phone connectivity is absolutely essential to keep us connected, whether we are commuters, businesses, parents, emergency response workers or students. Please support and adopt a wireless ordinance that helps the providers improve their networks so that we may have reliable wireless coverage. Thank you.

Sincerely,

Council Member, District1 Reyes:

I understand that you'll be considering new rules and regulations on wireless service providers. First of all, I am a tax-payer and a constituent who depends on wireless service all day for many needs. Second, I've had many times when my service breaks down, which is very frustrating considering that I pay good money for better service. So, if you are planning to adopt new rules for wireless providers, I urge you to NOT impose rules that cause further delays to my improved wireless coverage.

Third, please remember that we are counting on you to help the wireless companies bring us the improved service we've been waiting for.

Sincerely,

Lily Oustinovskaya

Council Member, District1 Reyes:

I read in the newspaper that companies like AT&T and Verizon are having a hard time keeping up with growing demand for wireless service and are constantly upgrading their networks to keep up. I also heard that the City Council is considering adopting an ordinance that governs how wireless companies like AT&T and Verizon make upgrades to their networks.

I depend on wireless all day everyday to do just about everything. I am a constituent and pay my taxes and deserve much better wireless coverage in a vast city like LA. I use wireless to be as efficient as possible without having to drive everywhere. My service definitely needs to improve since many times I am not able to complete a transaction due to lack of coverage or a bad signal.

So please consider that many people like me are relying on you to work with the wireless providers to bring us better wireless service as soon as possible.

I am writing to urge you and the rest of our city leaders to do what is in your power to bring us, the residents of this great city, more reliable cell service. Everyone uses broadband and depends on a mobile device to take care of business every day. In a spread out city like LA this type of service is especially important. We may not be able to get everywhere quickly by car or bus, so we rely heavily on mobile technology more and more to do what we need to every day.

As a resident of the City, I plead with you to do what you can to bring better service to LA as quickly as possible.

Dear City Council Member:

Patrons of LA restaurants, shops, and other businesses are big users of the mobile web on their mobile devices. Customers use mobile apps on their mobile devices to get directions, make reservations, or do research. But it's annoying and inconvenient for businesses and their patrons when signals fade and calls get disconnected.

We need better, more reliable wireless coverage for LA patrons and businesses. Please support policies and rules that bring better wireless coverage as quickly as possible.

Council Member, District1 Reyes:

I am writing to urge you and the rest of our city leaders to do what is in your power to bring us, the residents of this great city, more reliable cell service. Everyone uses broadband and depends on a mobile device to take care of business every day. In a spread out city like LA this type of service is especially important. We may not be able to get everywhere quickly by car or bus, so we rely heavily on mobile technology more and more to do what we need to every day.

As a resident of the City, I plead with you to do what you can to bring better service to LA as quickly as possible.

Sincerely,

Frances Groeneman
12411 Osborne St Unit 117
Pacoima, CA 91331

Council Member, District1 Ed Reyes
200 N. Spring Street
Rm. 410
Los Angeles, Ca 90012

Council Member, District1 Reyes:

I read in the newspaper that companies like AT&T and Verizon are having a hard time keeping up with growing demand for wireless service and are constantly upgrading their networks to keep up. I also heard that the City Council is considering adopting an ordinance that governs how wireless companies like AT&T and Verizon make upgrades to their networks.

I depend on wireless all day everyday to do just about everything. I am a constituent and pay my taxes and deserve much better wireless coverage in a vast city like LA. I use wireless to be as efficient as possible without having to drive everywhere. My service definitely needs to improve since many times I am not able to complete a transaction due to lack of coverage or a bad signal.

So please consider that many people like me are relying on you to work with the wireless providers to bring us better wireless service as soon as possible.

Sincerely,

Patrick Russell

Council Member, District1 Reyes:

Dr. Councilman Zine,

Please support telcom companies' efforts to enhance wireless networks throughout LA. Consumers, schoolchildren, crime victims, parents, tourists, MetroLink commuters, and businesses throughout the city need to have the best possible wireless network to enable us to communicate -- reduce anxiety, enhance spending that supports the community and government, and get help when we need it.

Please support and adopt a wireless ordinance that helps the providers improve their networks so that we may have reliable wireless coverage. Thank you for your time and consideration.

Sincerely,

Mary Schaubert

Los Angeles, Ca 90012

Council Member, District1 Reyes:

Please support rules and regulations that make it easier, not harder, for wireless companies to upgrade their wireless infrastructure in Los Angeles. The City Council should support every effort to improve LA's wireless coverage because Los Angeles deserves to have a stronger, more reliable wireless service. We are one of the largest cities in the country and the world. Improved cell phone coverage and faster data speeds are absolutely needed in a thriving, innovative metropolis like Los Angeles.

Please support wireless providers' plans to invest in and improve LA's wireless future. Do not make it hard by imposing unnecessary hurdles and roadblocks. We need better service now!

Thank you.

Sincerely,

Che Koll

Los Angeles, Ca 90012

Council Member, District1 Reyes:

It seems to me that cell service could be better if the city actually encouraged and helped companies make upgrades to their wireless facilities like cell sites. I encourage our city leaders to do your part to improve our cell service. This technology is not going away. Wireless devices are not just popular, they are necessary. Necessary to do school work or business or keep in touch with family members. Necessary in life. They're not just a fad or a nice convenience. Everyone depends on them.

Seems like everything will be done through wireless one day soon. In fact, it's already happening.
So please help improve our cell service here. That means approving an ordinance that makes it easier for cell sites to be built and improved.

Thank you.

Sincerely,

Paul Watkins

Chatsworth, CA 91311

Council Member, District1 Ed Reyes
200 N. Spring Street
Rm. 410
Los Angeles, Ca 90012

Council Member, District1 Reyes:

I recently heard that the City Council will adopt new rules for how wireless companies build cell towers and antennas. That is probably needed but only if it does not get in the way of bringing better wireless service as quickly as possible. Technology has advanced so much that we shouldn't have to experience dropped calls or slow download speeds. But that happens too frequently in LA.

So, please, as you consider the new rules that will be imposed on the wireless companies, think about us, the residents of the City , who don't want to wait any longer for better wireless service.

Thank you.

Sincerely,

Paul Watkins
10235 Independence Ave Unit 11

Council Member, District1 Ed Reyes
200 N. Spring Street
Rm. 410
Los Angeles, Ca 90012

Council Member, District1 Reyes:

Existing Wireless coverage in areas of the city are challenged and it's frustrating to spend my hard earned dollars on cell phones and plans and not have consistent connectivity when I am away from my land line.

New hardware designs are low profile and are not visually intrusive. We need to support the investment that companies want to make to improve this vital service.

If you are going to adopt new rules and regulations for wireless companies, please support rules that make it easier, not harder, for wireless companies to improve the wireless services they offer in LA. Please do what you can to support a more reliable wireless network for LA! We deserve it and really need it! Thank you.

As someone who lives and works in Los Angeles, I write to ask that you do what you can to facilitate better broadband coverage as soon as possible. Like many other residents, I rely on wireless services to stay in touch with my family, friends and take care of important matters daily. Unfortunately, my calls are often dropped on my route home from work in Santa Monica to my home in the South Bay. This is an issue of increasing concern to me as the number of mobile subscribers steadily rises, placing enormous demand on our already strained wireless networks. Compared to the other major cities across the U.S. that I've lived in and visited, LA easily has the worst connectivity of all, which should be unacceptable considering the number of consumers and businesses in the city that utilize mobile technology. My service definitely needs improvement, so please do what you can to support better broadband connectivity!

Thank you.

Help Upgrade Wireless Service in Los Angeles!

AT&T is ready to continue investing to bring a world-class wireless infrastructure to the City of Los Angeles.

Our ongoing investments would allow us to provide seamless connectivity across our networks - WiFi, wireless and wired broadband - to enhance our customers' experience and give you fast, reliable access to information and services when you need them.

Wireless service requires infrastructure placed in proximity to wireless customers. We need your support to meet the needs of all City of Los Angeles neighborhoods and deliver quality, reliable wireless service.
