SUMMARY

In a report to the Board of Police Commissioners dated March 1, 2013 (attached to the Council file), LAPD requests authority to accept a four-month, no-cost extension for the Los Angeles Smart Policing Project. LAPD reports that the focus of this grant has been to reduce gun violence in Newton Area and to support the use of predictive analytics and other technology that would assist officers in targeting chronic locations and chronic offenders. According to LAPD, Newton Area has been successful in reducing violent crime through Operation Los Angeles Strategic Extraction and Restoration program (LASER).

LAPD goes on to report that Dr. Uchida of Justice & Security Strategies, Inc., continues to evaluate LASER's effects. The proposed grant extension will allow Dr. Uchida to analyze data through the first quarter of 2013. Additionally, the extension will allow crime analysts, officers, and detectives to be trained on Palantir, a platform that allows for the use of multiple databases in one place. Palantir has been used by Newton Area's Crime Intelligence Detail to create Chronic Offender Bulletins, to track vehicles using data from the Automated License Plate Reader, to examine social networks, and for other investigative purposes. The expansion of the training room is not yet completed and will require additional time for the new workstations to be wired and finished. On March 26, 2013, the Board approved LAPD's request for approval to extend the grant term.

At its meeting held April 12, 2013, the Public Safety Committee recommended that Council authorize LAPD to extend the term of the 2009 Los Angeles Smart Policing Project grant and to approve a related transfer of funds, as recommended by the Board of Police Commissioners.

Respectfully submitted,

PUBLIC SAFETY COMMITTEE
