We are four adults in business in the city of Van Nuys and we are supporting the increase in number of pet allowed in each dwelling. All of our dogs are licensed, chipped, fixed, inoculated and well cared for. They are also, except for one, rescues from situations where they were on the streets without homes. It makes perfect sense that more rescues make more revenue for the county, but the real reason we support this move is because we love these animals and they deserve to live too. Please continue your efforts to save more animals and we will support you in any way we can.

hi councilman Wesson,

i heard about the motion to increase animal limits in LA. please DO NOT approve this. we have a terrible feral cat problem & loose dogs as well in our council area. i have trapped numerous feral cats but have to do it again & again. we need no more animals. we need no more poop in our back yard & loss of the wild birds in our trees & backyards. poop is poison for children, and so many cat & dog owners don't pay the license fees anyway. animal lovers should spend more time volunteering to tutor poor kids instead of caring for more pets. thanks for voting against this and spreading the word. you may read this at the community town hall meetings any time. best regards,

Judy Reidel

Raising the limit of animals would be great for La after my mother passed away I had to put down a cat that I had for 18 years because I was already at 3 cats. She was a beautiful calico yes she was elderly but who knows how many years she had left its something I will never know because La county would not allow it. Revenue is needed in la and when it comes to the dogs needed to be registered that would help out la as well tremendously please help us cat and dog owners do the right thing and love and keep our animals.....
