Subject: Increased limits for dogs and cats

Council File: 10-0982

Dear Councilman Koretz,

As a constituent of your district, I am asking you to vote in favor of the proposed new limits for dogs and cats in the city of Los Angeles.

Increasing these limits would allow more dogs and cats to be adopted from the shelter, will prevent as many animals from being surrendered and will generate additional licensing income for the City of Los Angeles.

A negative impact has not been experienced in the many places that now have higher limits. I feel that allowing more dogs and cats to be adopted would benefit our district, both ethically and financially.

Sincerely,

Susan Tuberman
