P/S

We are writing to ask you and the members of the Public Safety Committee to NOT APPROVE the subject motion, which would allow up to ten animals (five dogs and/or five cats) per property.

As manager of the above 44 low and moderate income housing, we kept the building Code conforming, clean and a pride of the community. Having dogs and cats in the Building, knowing the residents and the community people as a whole, would affect the quality of life of seniors, children and families in Historic Filipinotown.

Please...don't approve the motion!

LITO DESALESA,
BUILDING MAINTENANCE MANAGER

We are writing to ask you and the members of the Public Safety Committee to NOT APPROVE the subject motion, which would allow up to ten animals (five dogs and/or five cats) per property.

As you may be aware Burlington Community and Housing Development has been located at 242 N. Burlington Ave. Los Angeles, CA 90026 since 1975. This is a low-income community where parents are struggling to afford to educate and feed their children and maintain sanitary, quiet and safe housing. While we teach our students about animals, increasing the number of dogs and cats in this very dense community would create many hazards to health and safety.

We urge you to consider the overall impact on many communities similar to ours and to vote "NO" on this unsafe and unwise proposal.
