Los Angeles, CA 90012

Dear Ms. Wolcott,

I work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra Club and the Don't Waste LA Coalition to ask for your vote to approve this Zero Waste LA Franchise ordinance for the future of our city on April 1.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!

Thank you,

Mr. George Watland
3435 Wilshire Blvd Ste 660
Los Angeles, CA 90010-1907

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!

Thank you,

Ms. Isela Gonzalez
400 W 9th St
Los Angeles, CA 90015-1571

Dear Ms. Wolcott,

In order for the city to be a leader and be able to reduce its costs to its residents and for its services, we must adopt the Zero-Waste LA

Franchise System.

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra, the Don't Waste LA Coalition, and many others to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

Los Angeles, CA 90012

Dear Ms. Wolcott,

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!

Thank you,

Mr. Felix Sahig
7621 Truxton Ave
Los Angeles, CA 90045-1655

Los Angeles, CA 90012

Dear Ms. Wolcott,

As a resident of a single-family home in western Los Angeles, I have found the separate cans for garden, recyclable, and non-recyclable waste to be very useful in avoiding adding extra waste to the system. The Zero Waste LA Franchise system would extend this benefit to businesses and multi-family dwellings, and put that much less strain on our garbage dump facilities. Please approve the ordinance April 1. Thank you.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

Dear Ms. Wolcott,

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

My heart twists within me when I look at what was once Sunshine Canyon ... now a landfill. This is a travesty. PLEASE do whatever you can to ensure that NO part of our beautiful Earth is covered with trash. It is an offense to God.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

Thank you again for all you have done for Griffith Park.

sincerely,
Jane W. Cook

Los Angeles, CA 90012

Dear Ms. Wolcott,

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!

Thank you,

Ms. Maureen Nolan

Los Angeles, CA 90012

Dear Ms. Wolcott,

West-sider here. This is something we simply MUST do. Sooner or later!

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!

Thank you,

Ms. Mary Lyon

Ms. Holly Wolcott
Room 360
200 North Spring Street
Los Angeles, CA 90012

Dear Ms. Wolcott,

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

We all have to work together to make eliminate the horrendous amounts of waste

that ends up in landfills. I am willing to do my part which includes separation of glass and paper from other kinds of trash.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San

Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!

Thank you,

Mrs. Shirley Shapiro
252 Avondale Ave
Los Angeles, CA 90049-3602

Dear Ms. Wolcott,

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

I know this is possible because other cities have done this successfully. It also should provide more jobs for our citizens.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!

Thank you,

Ms. Damiana Hook

Dear Ms. Wolcott,

I live, work and shop in Los Angeles and I support the Zero Waste LA Franchise system.

I join the Sierra Club and the Don't Waste LA Coalition to ask the City Council to approve the Zero Waste LA Franchise ordinance for the future of our city on April 1.

Be the example and do the right thing!

It is time to show that our City, known for its high air pollution and the recent closure of numerous landfills like Puente Hills, can also proactively reduce toxic emissions and trash that cities like San Francisco have already demonstrated.

The City of Los Angeles has set ambitious Zero Waste goals to achieve 90% waste diversion by 2025, but in order for us to accomplish this we need to adopt visionary plans like the Zero Waste LA Franchise System. The exclusive franchise system will divert a huge portion of our trash from landfills by finally allowing multifamily and commercial owners and residents to recycle the plastic, paper, glass, metal and other reusable materials than now fill their waste bins headed for a local dump.

It takes forward thinking policies to reduce waste and to ban plastic bags that will help Los Angeles become the nation's leading city in sustainability.

I urge the City Council to vote yes for the Zero Waste LA Franchise System!
