*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely, 

Zip Code: 90035

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code:

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

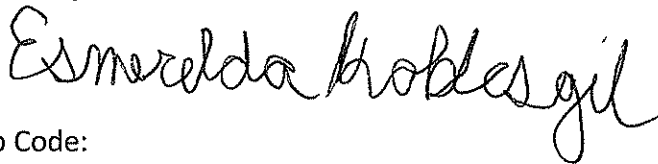

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely, 

Zip Code: 90007

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code:

Cc: Sharon Gin

I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely, 

Zip Code: 90032

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code:

91335

I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

*Martha Juarez*

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely, 

Zip Code: 90018

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code: 90046

I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code: 90066

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

*RE: Community Care Facilities Ordinance, File #11-0262*

Dear Councilmember,

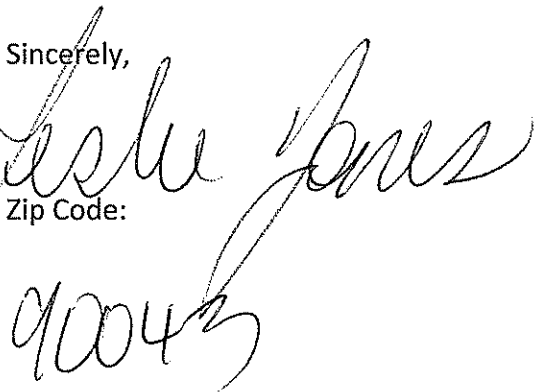

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code:

90026

Dear Councilmember,

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code: 90026

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code:

91304

We urge you to oppose the Community Care Ordinance before the Los Angeles City Council. Rather than increase neighborhood safety, the Ordinance in its current form will create more homelessness in local communities, decrease community safety, and add more costs to local taxpayers.

The proposed Community Care Ordinance will harm vulnerable populations such as veterans, older adults, and families from needed housing by placing unacceptable barriers on those who develop such housing. I am walking at HomeWalk 2011 today because I believe no one in Los Angeles should be without a home, and I am committed to being a part of the solution.

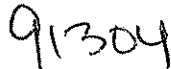

With your support and guidance, the Home For Good Task Force – a partnership between the L.A. Chamber of Commerce and United Way of Greater Los Angeles - has made significant strides in the campaign to end chronic and veteran homelessness by 2016. This work is guided by data here in Los Angeles and throughout the country that permanent supportive housing is the most effective way to address homelessness and save significant taxpayer resources.

We urge you to take all the steps you can to defeat the Community Care Ordinance in its present form.

Sincerely,

Zip Code:

90015
