To whom it may concern,

I am a native of the Valley and have seen the many changes in the names communities refer to themselves as. I grew up near the area requesting a name change and went to the same nearby schools as did the children growing up in the applicant area (Gledhill Elementary, Holmes Jr High, Monroe High & CSUN). We started out as Sepulveda and then some of the neighbors changed the name by petition west of the 405 to North Hills. The area west of the applicants hill shares the same zip code with the rest of the North Hills community even though it is technically Northridge. Half of the applicant "Woodley Hill " area homes are no different then the homes north or south of them so I don't understand what makes this area have any more in common with Northridge then the rest of us in the 91343 zip code. The other homes in the hilly portion would destroy the name of the remaining 91343 community for if they go, North Hills becomes "No Hills" and at this point it would make more sense for the rest of the 91343 residence west of the 405 freeway to also change the name of our community to Northridge because we're no different then the applicants community of up to 400 homes.

Respectfully,

David Hyman
