----- Forwarded message -----

From: Chris Hieber <vec2181@gmail.com>
Date: Tue, May 23, 2017 at 11:16 AM
Subject: North Atwater bridge
To: <oliviafrostdressage@gmail.com>

To Whom it May Concern:

I am writing in support of the North Atwater Bridge Proposal.

I have ridden horses along the LA river for 20 years and in that time have seen many unfortunate and horrifying accidents while trying to cross the river. Having access to the Griffith Park trails is very important to me as it allows my horses and I to enjoy and utilize the park and would like a safer way to do so.

Thank you,

Christopher Hieber

Hello,

Please see the attached written comment for **Council File 11-1246-S1**. I have attached a PDF with all the letters in support of the N. Atwater Bridge project as well as the letters from Council Districts 4 and 13 respectively.

If you have any issues accessing the information, feel free to contact me directly at 323-221-7800 or via email at jason@riverla.org.

Best,

Jason

Support for LA River North Atwater Multimodal Bridge

Dear Councilmembers,

I am writing to strongly support the City's construction of the North Atwater Bridge, a critical public access point across the Los Angeles River to Griffith Park that serves all non-motorized modes equally: pedestrians, equestrians and bicyclists.

The Los Angeles River bike path is a regional destination, however it is hard to access from communities on the east bank of the river. This bridge will provide a safe, convenient connection from residential communities on the east side to both the bike path and all the other recreational opportunities in Griffith Park. We need this bridge to fully enjoy the amazing public resources our area has to offer!

One of the secured sources of funding is Active Transportation Program (ATP). ATP consolidates existing federal and state transportation programs, including the Transportation Alternatives Program (TAP), Bicycle Transportation Account (BTA), and State Safe Routes to Schools. This bridge will provide a safe facility for all non-motorized users.

I believe the North Atwater Bridge project will greatly benefit my community and so I urge the City to provide the remaining funds needed to begin construction of this project right away. If you have any questions about my support, I can be reached at the information below.

Sincerely,

Chris Young

Support for LA River North Atwater Multimodal Bridge

Dear Councilmembers,

I am writing to strongly support the City's construction of the North Atwater Bridge, a critical public access point across the Los Angeles River to Griffith Park that serves all non-motorized modes equally: pedestrians, equestrians and bicyclists.

The Los Angeles River bike path is a regional destination, however it is hard to access from communities on the east bank of the river. This bridge will provide a safe, convenient connection from residential communities on the east side to both the bike path and all the other recreational opportunities in Griffith Park. We need this bridge to fully enjoy the amazing public resources our area has to offer!

One of the secured sources of funding is Active Transportation Program (ATP). ATP consolidates existing federal and state transportation programs, including the Transportation Alternatives Program (TAP), Bicycle Transportation Account (BTA), and State Safe Routes to Schools. This bridge will provide a safe facility for all non-motorized users.

I believe the North Atwater Bridge project will greatly benefit my community and so I urge the City to provide the remaining funds needed to begin construction of this project right away. If you have any questions about my support, I can be reached at the information below.

Sincerely,

Ruth Gallardo
