The Los Angeles Parks Foundation believes in the importance of the Atwater Multimodal Bridge project and supports the public-private partnership that spearheaded this much-needed community bridge.

This project will connect communities within Los Angeles and allow equestrians, bicyclists, and pedestrians easier access to the shared space of the Los Angeles River.

LAPF is a not for profit organization that raises private funds to enhance, expand, preserve, and promote recreation and open space for the people of Los Angeles. The Foundation works directly with the City of Los Angeles Recreation and Parks Department to serve all 450 city parks to assist with projects and program support that is above and beyond municipal funding.

We are proud to support the Atwater Multimodal Bridge. This incredibly significant project to connect everyone in our city represents the kind of city where everyone has access to the LA River and beyond.

Sincerely,

Judith Kieffer  
Executive Director
