This motion allocates funding to an entity that does not control the land and the permitting.
This use of public funds emphasizes the public ownership, not private ownership. There cannot
be a "gift" of a public asset as stated.

US Army Corps of Engineering permitting will be issued to the agency with jurisdiction.

Is the LA River Revitalization Corporation that agency? No.

LA County Flood Control District also has a stake.

Use the proper process. You have not identified the permittee in this motion.
