To: Paul Koretz <pxkoretz@lacity.org>, adam.lid@lacity.org, holly.wolcott@lacity.org

Mr. Koretz,

Attached is one of many, many documents proving that - in violation of the City's contract with Best Friends, thousands of false impound numbers were used to falsify LA Animal Services statistics. The shelter occupied by Best Friends is intended to help animals already IN city shelters, and that Best Friends is strictly prohibited from doing intake. This practice continues to this day.

This is one of the many documents showing a supervisor at LAAS giving handwritten impound numbers to a coordinator at Best Friends, deliberately in violation of the contract. There is also proof that these and thousands of other animals were never in a city shelter.

If you approve this new contract with Best Friends without getting to the bottom of this issue in a public and transparent way, I will share this story publicly.

Dan
