

## Keep Plastic Out of the Pacific

istockphoto/shutterstock.com

Dear Council Member,

Californians throw away more than 123,000 tons of plastic bags each year, and too many of them end up as litter, polluting our ocean. Right now, **millions of tons of trash are swirling off our coast** in the North Pacific Gyre; in some parts of the ocean, plastic outweighs plankton 6-to-1.

All this plastic pollution harms marine animals, litters our iconic coasts, threatens public health, and jeopardizes California's economy.

Nothing we use for a few minutes should pollute our ocean for hundreds of years. I urge you to do whatever you can to reduce the number of plastic bags used in L.A., and to support a statewide ban on these wasteful pieces of trash.

Sincerely,

## Save Yosemite

Dear Secretary Salazar,

There are some places that we should be protecting forever: I believe Yosemite is one of those places. Unfortunately, mining claims endanger the beauty and health of this beloved park.

I worry that we could sacrifice the long-term health of Yosemite during a rush to mine gold and uranium while prices are high.

I urge you to deny any new mining claims within 50 miles of the park that could harm its health. I also urge you to remove any current mining threats, such as the 185 active mining claims within 10 miles of Yosemite's border.

Dear ~~Mayor~~ Mayor

For decades, billions of pounds of plastic and other trash have been carried by wind and waves into the Pacific. The plastic swirling around in the ocean has formed the **Pacific Garbage Patch**, a soup of plastic trash that's more than twice the size of Texas.

All this plastic pollution harms marine animals, litters our iconic coasts, threatens public health and jeopardizes California's economy. Fortunately, there are dozens of ways in which we can stop the flow of plastic pollution.

Los Angeles can lead the way in taking on this sea of plastic. I urge you to take action to enact a ban on single-use plastic bags.

For decades, billions of pounds of plastic and other trash have been carried by wind and waves into the Pacific. The plastic swirling around in the ocean has formed the **Pacific Garbage Patch**, a soup of plastic trash that's more than twice the size of Texas.

All this plastic pollution harms marine animals, litters our iconic coasts, threatens public health and jeopardizes California's economy. Fortunately, there are dozens of ways in which we can stop the flow of plastic pollution.

\_\_\_\_\_ can lead the way in taking on this sea of plastic. I urge you to take action to enact a ban on single-use plastic bags.

Sincerely,
