A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enabled by the Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or resolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website. Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Council's rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at empowerla@lacity.org.

Neighborhood Council: Northwest San Pedro

Name: Melanie Labrecque

Email: melanie.labrecque@yahoo.com

The Board approved this CIS by a vote of: Yea(12) Nay(0) Abstain(0) Ineligible(0) Recusal(0)

Date of NC Board Action: 07/10/2023

Type of NC Board Action: For

Impact Information

Date: 08/29/2023

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 11-1813-S8

Agenda Date:

Item Number:

Summary: Meeting Held: July 10, 2023 We the Northwest San Pedro Neighborhood Council strongly support the investigation by the Board of Public Works, specifically the Office of Petroleum and Natural Gas Administration and Safety, Bureau of Sanitation, Emergency Management Department, Los Angeles Fire Department, Los Angeles Department of Building and Safety, Los Angeles Department of Power and Water, and any other relevant department, with the cooperation and coordination of the City Attorney, to report back with an analysis of regulating authority for the water basin under the purview of the City's jurisdiction, when it comes to the operations of the site, and its potential water contamination produced by the Rancho LPG Facility. Furthermore, Rancho LPG houses five above ground 60,000-gallon horizontal storage tanks that store butane and propane that are liquified Petroleum gas that is extremely flammable. This

facility is also located in a 7 Point earthquake rupture zone, identified recently. This facility is adjacent to residential homes and very close to two public schools and one private school, as well as LAUSD Christensen Science Center. There is a Soccer field next door and public parks in close proximity. We are very concerned about the water table possibly being contaminated and this getting into our drinking water or ocean water. The basin being polluted, and the release of contaminated water could be very detrimental for human life as well as the wildlife and local water infrastructure. It's important to identify which agency oversees regulations of Rancho LPG Facility and make sure the facility is operating at current safety standards and guidelines to protect the adjacent community.
