Council File No: 12-0489

Comments for Public Posting: As a former resident of Chinatown, LA, CA, I'd like to request the rejection to update the BID contract. We would like BID to end here on our in Chinatown. Among the residents, BID is a fearful, racists, and untrustworthy organization in Chinatown. They serve no purpose or alliance to the people but to harass the elderly and homeless. This is an injustice. Folks are organizing against the BID because they are inherently serving the Elite, upper class and interests of George Yu. Just because George Yu has the financial resources to torment his undesired tenants does not make it okay to do. Los Angeles has the duty to serve the interests of its people. More than ever, we need council members to do their job of upholding their social contract. Who do they actually serve?? You've been elected into office by the people. Thus, your allegiance is to the working class. But the BID, they are not elected. They are hired. They have no ties to the community thus making it easier to harass us!! They have done nothing to serve the people of chinatown. I hope you choose to terminate BID. THANK YOU, Michelle
