Please accept thous email as a huge vote against placing a homeless encampment in the empty lot in the middle of the Miracle Mile.

This flawed idea has failed to curb homelessness in other areas of L.A, including Koreatown, and has been shown to not serve the unhoused. The lack of sanitation and the additional confluence of other unhoused is a sad, but dangerous precedent. Especially, as it is in such proximity to a school with many minor children.

Again, I am against this lot being considered or used for the unhoused in Los Angeles.

Sincerely, Gina Adelman,
