Comments for Public Posting: The Santa Monica courthouse is a beautiful place where skaters can meet up and get energy out without having to disturb the neighborhood and also is the only sanctioned skate park or place in that immediate area and to see it go would mean long treks other places or skaters look to the streets to find places to be active. All in all the courthouse is a historical spot to plenty skaters around the world who know it for its regalia in the sense of its immortalization in skate videos and skate history
