**PROJECT LOCATION:** 3135 Drew Street, Los Angeles, CA 90065

## DESCRIPTION OF NATURE, PURPOSE, AND BENEFICIARIES OF PROJECT:

The proposed project involves retrofitting the existing children's splash pad water playground with a Vortex water recirculation system or equivalent system so the splash pad water can be safely collected, treated and reused in compliance with the City's water conservation ordinance. A chlorine and ultraviolet system will be used to treat the water. As part of the project, the existing rubberized surface of the splash pad will be replaced with a concrete surface. Families in the neighborhoods surrounding the park as well as the Department of Recreation and Parks-through lower water and sewage bills-will be the primary beneficiaries of the project.
