SUMMARY

On December 5, 2012, Council considered Motion (LaBonge – Rosendahl) relative to safety issues posed by vehicles blocking intersections. Motion states that intersections blocked by vehicles are common in the city, especially during high traffic periods. This adds to traffic congestion and creates gridlock. In addition to the inconvenience of blocked intersections, these gridlocked intersections present significant safety issues. Motion movers believe that increased enforcement of California Vehicle Code § 22S26(a) may help alleviate blocked intersections. Council referred Motion to the Transportation Committee for consideration.

At its meeting held December 12, 2012, the Transportation Committee recommended that Council approve Motion's instruction to the Police and Fire Departments and DOT to report to Committee relative to this matter.

Respectfully submitted,

TRANSPORTATION COMMITTEE
