TRANSPORTATION

MOTION

A speed feedback sign is an interactive sign that displays vehicle speed as motorists approach. The purpose of these signs is to slow cars down by making drivers aware when they are driving at unsafe speeds. The Skirball Center has identified funds for the design and installation of two speed feedback signs at their northern entrance to act as a traffic calming measure. Council action is needed to accept and expend these funds.

I THEREFORE MOVE that the Council AUTHORIZE the Department of Transportation to accept \$36,000 from the Skirball Center for the design and installation of two speed feedback signs at their northern entrance, as follows:

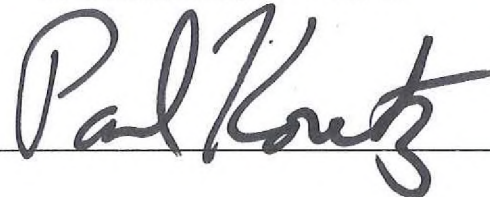

1. Deposit \$6,000 in Fund 100/94/Salaries & Overtime Account/Appropriation Unit 001090 for the design of the two signs.
2. Deposit \$16,000 in Fund 100/94/Traffic Signal Equipment/Appropriation Unit 3360 for purchase of the equipment.
3. Deposit \$14,000 in Fund 655/94/Account C280 and execute a non-participating change order to an ATSAC construction contract to install the two speed feedback signs.

I FURTHER MOVE that the Controller be authorized to make any technical corrections or clarifications to the above instructions in order to effectuate the intent of this Motion.
