

ENERGY AND ENVIRONMENT COMMITTEE REPORT relative to proposed Letter of Agreement with Southern California Disposal and Recycling Co., Inc. for transfer, transport, and disposal of City waste from the West Los Angeles Wasteshed to City-designated facilities.

Recommendation for Council action:

AUTHORIZE the Board of Public Works to execute the service agreement with Southern California Disposal and Recycling Co., Inc. for transfer, transport, and disposal of City waste from the West Los Angeles Wasteshed to City-designated facilities for a 10.5 year term at an amount approved by Mayor and Council through the City's annual budget process, subject to City Attorney approval as to form.

Fiscal Impact Statement: The City Administrative Officer (CAO) reports that there is no General Fund impact as sufficient funds within the Solid Waste Resources Revenue Fund are available to support the first year costs of the proposed Agreement. Future year funding will be provided through the City's annual budget process and subject to Mayor and Council approval. The recommendation contained in the June 17, 2013 CAO report, as attached to the Council file, complies with the City's Financial Policies as ongoing revenue will support ongoing maintenance.

Community Impact Statement: None submitted.

TIME LIMIT FILE - SEPTEMBER 10, 2013

(LAST DAY FOR COUNCIL ACTION - SEPTEMBER 10, 2013)

Summary:

On August 7, 2013, your Committee considered a June 17, 2013 CAO report relative to proposed Letter of Agreement with Southern California Disposal and Recycling Co., Inc. (SCD) for transfer, transport, and disposal of City waste from the West Los Angeles Wasteshed to City-designated facilities. According to the CAO, the Bureau of Sanitation (BOS) collects approximately 926 tons per day (tpd) (or 242,000 tons annually) of refuse and bulky items (436 tpd), yard trimmings (330 tpd), and recyclables (160 tpd) from the 134,000 households in the West Los Angeles Wasteshed. Refuse and bulky items are hauled to SCD and the City-owned Central Los Angeles Recycling and Transfer Station (CLARTS). Yard trimmings are hauled to green processing facilities. Recyclables are hauled to a Material Recycling Facility through the Culver City Transfer Station.

Effective July 1, 2006, the BOS executed Contract No. C-109961 with SCD to allow the receipt of refuse and bulky items at the SCD transfer facility in Santa Monica where they are hauled to their designated disposal or beneficial reuse facility within 24 hours of receipt. This five-year contract expired on June 30, 2011 and the Board has approved motions to extend the contract, on a month-to-month basis, for an additional two years.

Respectfully Submitted,

ENERGY AND ENVIRONMENT COMMITTEE
