

Sept. 8th, 13

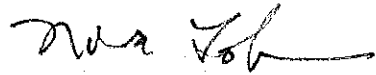

To whom it concerns,

This concerns the proposed project on Idaho in West L.A.  
The small house with the <sup>shade</sup> ~~shade~~ it provides to all of us that  
walk in the neighborhood will evaporate if the giant apartment  
building at 11754 comes to be a reality. This is a neighborhood  
of small apt. buildings with trees, canopies, we need on a hot  
day to protect us from the sun.

More people will stay inside and use air conditioning if our  
shaded walks disappear ~~and~~ the trees have been mowed down ~~for~~ for  
4 story apt. buildings which dwarf the surrounding homes. Please  
do not rob us of our sky space. We moved to this community for  
its character. Gigantic apt. bildings will drastically change  
our West L.A. neighborhood.

Sincerely,

Nora Lohmann
