Re: CALIFORNIA PUBLIC RECORDS ACT REQUEST

Dear Public Records Act Officers:

This is a request for records pursuant to the provisions of the California Public Records Act as amended (Cal. Gov. Code § 6250, et seq.). I request copies of all records prepared, owned, used, or retained by the City of Los Angeles, Los Angeles Fire Department (CUPA) on the subject of Fire Department Quarterly Deficiency Quarterly Progress Reports from January 2006 to January 2016.

The request for these records made previously by Mark Wolfe in his comment letter of May 9th, 2016 on the Draft EIR for Fire Station # 39. Mr. Wolf's The comment letter was sent to Maria Martin, City of Los Angeles Public Works,

Bureau of Engineering Environmental Management Group 1149 S. Broadway, 6th Floor, Mail Stop 939 Los Angeles, CA 90015-2213, and his request received a (non) response in the Final EIR (MRW-6).

Therefore, I am requesting once again the following records:

"Pursuant to California Health and Safety Code section 25404, the City of Los Angeles has been authorized by the Secretary for Environmental Protection to implement a Unified Hazardous Waste and Hazardous Materials Regulatory Program as a Certified Unified Program Agency (CUPA). The DEIR states that the Los May 9, 2016 Page 5 Angeles Fire Department is the CUPA for the City. (p. 4.5-4).

To maintain its authorization, the Fire Department must operate the program in compliance with statutory and regulatory requirements, and also submit to a triennial program evaluation by CalEPA. Please provide the dates of all triennial program evaluations since 2006 that , together with any associated reports of the outcomes generated by CalEPA or the City and its departments. Please identify any program deficiencies that could involve or affect the DEIR's analysis and conclusions regarding the presence of hazardous materials at the Project site."

This request includes all records regardless of form, including but not limited to letters, memoranda, telephone log entries, visitor log entries, message receipts, notations of conversations, meeting notes, e-mail messages or other records on magnetic media, fax cover sheets, reports, statistics, calendar entries, permits, questionnaires, photographs, audio tape, film, and videotape.

This request reasonably describes identifiable records or information produced therefrom and I believe no express provision of law exists exempting the requested records from disclosure. Should your agency find any portion of any requested record exempt from release, I ask that you carefully consider the public interest served by the full disclosure of all requested records.

The requested records relate to an important issue in which the public has expressed an enormous amount of interest – health and safety of the public, especially vulnerable children. The public interest in these records clearly outweighs all other interests. Therefore, I request that you release non-segregated copies of each of the requested records otherwise exempt under California Government Code 6254(a).

Should you find any portion of any requested record exempt from release, I ask that you exercise your discretionary authority to release the requested record in its entirety. If you decide against exercising your authority to release non-segregated copies of all requested records, Government Code Section 6257 requires that you release all reasonably segregable portions of the requested records. I reserve my right to challenge the withholding or deletion of any information.

If you decide to withhold any portion of any requested record, I ask that you provide me a list identifying what you have withheld. I also ask that you cite the specific exemption(s) being relied upon to withhold information. In addition, if you deny all or part of this request, Government Code Section 6256.2 requires that you provide the name and title or position of each person responsible for the denial of this request. Should you decide to withhold any information, Government Code Section 6256 requires that you notify me of the reasons for this determination no later than 10 days after receipt of this request. Government Code Section 6256.2 prohibits the use of the 10-day period, or any provisions of the Public Records Act, "to delay access for purposes of inspecting public records."

I also request any records that indicate, suggest, or otherwise identify the prior existence of other records related to my request that may have been destroyed or modified. California Government Code Section 14755(a) makes clear that "[n]o record shall be destroyed or otherwise disposed of by any agency of the state" unless (1) the Director of the Department of General Services has determined that "the record has no further administrative, legal or fiscal value," and (2) "the Secretary of State has [also] determined that the record is inappropriate for preservation in the State Archives." The "willful removal" or "destruction" of agency records in violation of these statutory mandates can result in the imposition of criminal sanctions. [See, Cal. Gov. Code § 6200 (felony offense for destruction of records by "custodial officer") and Cal. Gov. Code § 6201 (misdemeanor offense for destruction of records by "noncustodial officers").]

Given the public interest in the requested records, I ask that you exercise your discretionary authority and waive all reproduction fees associated with my request. I seek this information because it is informative of your agency's operations and activities, and important to the health and safety of members of the public.

Please call me at [818.785.5515](tel:818.785.5515) or e-mail me at robinasuwol@earthlink.net if you have any questions or need additional information. Thank you for your assistance and cooperation with this matter.

* Ms. Wolcott please kindly place in the Fire Station #39 Los Angeles City file.

Sincerely,

Robina Suwol, Resident

I am writing concerning the B Permit Motion to be voted on June 29, 2016 (Council file number 16-0421) introduced by my councilman David Ryu. I urge support of this motion because of our experience in Laurel Canyon of significant abuse by developers of securing proper zoning permits and environmental reviews when building on a new street. And because there are many "paper streets" in my community, receiving notice of the issuance of B Permits will allow us to monitor the build and make sure developers conduct business by the book, so to speak. Way too often now, because we are not notified of the issuance of B Permits, we come upon these situations after damage is done, or even more important, public safety is compromised. This motion would simply require public notification to the community of B permit issuance and I urge you to support this motion.

I am grateful to you for your time and consideration.

As a board member of the BABCNC, I am strongly in favor of this motion to revise notification requirements surrounding paper streets. I could not, in fact, be more strongly in support of this measure.

Re: Council File Number (16-0421) CONSIDERATION OF MOTION (RYU - KORETZ - HUIZAR)
relative to mandating public notice of B Permit applications for the improvement of paper
streets.

Dear President Wesson and Members of the City Council,

6/28/2016

I'm writing as a concerned resident of Laurel Canyon and a member of the planning and land use for LCA and BABCNC. I support the B permit public notification motion to be considered by City Council tomorrow. I have also designed and built (3) hillside houses and provided the required road improvement (B permit) for road widening for each house. The improvements on substandard streets for my (3) B permits totaled 350' length x 20' wide roadway with concrete curb and gutter (both sides). The developer of viable sites should always be required to improve the area and make it safe for the neighborhood and increase parking. The notification of B permits is a great help for the neighborhood to plan how to get home.

Laurel Canyon has many paper streets and the neighborhood deserves to be informed of such impacts that will affect their access for long periods of time. The motion was initialed from the Crisler Way road improvement (B permit - BD-401611), which has expired. The 2004 approval for this B permit needs to be redesigned to include codes changes since 2004 and all related infrastructure. Below is a photo of the location of Crisler Way proposed road improvement, photo taken from Grand View at start of Crisler Way.

The hillside at Crisler Way has a 70% slope

The hillside at Crisler Way has a 70% slope and dirt removal to make a 20' wide street will require up slope and down slope retaining walls. I have roughly estimated the current Crisler Way B permit design will have 3200 CY of dirt export (or 444 trucks) on mostly single lane roads. The dirt removal for the (4) proposed house will be in addition to this amount. The current design for the storm water runoff is to drain down the hillside, since there are no storm water easements. Grand View end of road, higher elevation

End of Crisler Way (proposed) and drainage point

The roof water for the (4) proposed houses has been planned to drain to an onsite disbursal basin for each house, which is not allowed in current code. Crisler Way has no sewer access from Grand View since it is upslope and 10' above the first (highest) house. No plans for septic on plans and no other plans for sewer.

The Crisler Way B permit is a typical example of all that needs to be considered with paper street development. Infrastructure where none exists has a huge impact on the neighborhood Notification, along with careful BOE approvals for road and utilities (sewer, gas, water, and electrical) need to be well planned before any neighbor gets notification. The Crisler Way B permit is a typical example of the mess we have in Laurel Canyon.

Thank you, Stephanie Savage

>I also request any records that indicate, suggest, or otherwise identify the prior existence of other records related to my request that may have been destroyed or modified. California Government Code Section 14755(a) makes clear that "[n]o record shall be destroyed or otherwise disposed of by any agency of the state" unless (1) the Director of the Department of General Services has determined that "the record has no further administrative, legal or fiscal value," and (2) "the Secretary of State has [also] determined that the record is inappropriate for preservation in the State Archives."
