Subject: Council File: 14-0163-S3.

To: <CityClerk@lacity.org>

Hi, my name is Mike Anderson, I'm a resident of LA County (Altadena) that works in LA city proper. I'm writing regarding Council File 14-0163-S3.

It's absolutely vital and only logical that sidewalk repair funds be prioritized for where they will have the biggest impact on pedestrian safety. That's why I'm asking to please retain the Vision Zero High Injury Network (HIN) in the proposed Sidewalk Repair Program prioritization methodology. Sidewalks and pedestrian friendly transit are the future of this city from an ecological perspective, but none of that can move forward if pedestrians aren't safe. As a parent I am constantly terrified walking with my toddler anywhere in Los Angeles and focusing on these High risk spots is a great start to fix this issue. Please reconsider Paul Kortez's decision. Thank you.
