Council File No: 14-0268

Comments for Public Posting: I urge the Council members to pass the Tenant Anti-Harassment Ordinance in its strongest form, without amendments that water it down and take away its enforcement mechanisms. There needs to be enforcement, there needs to be penalties in the form of high fines and for repeat offenders, incarceration. Over 60% of the population of LA are renters. Most are now housing-insecure, and harassment is increasing daily, because there is no law protecting tenants from it. We need this Ordinance NOW.
