Council File No: 14-0348-S1

Comments for Public Posting: I am a school nurse and respectfully urging the board to add more trained School Resource Officers to our campus. Nationally, gunfire on school grounds rise to at least 144 incidents in 2023-2024 - up 31% from year before. LA County has expanded the START program, but we need on-site protection. Additional officers at drop-off, pick-up, class hours, and school events will safeguard students, staff, and families. Please support Council file 14-0348-S1
