Council File No: 14-0518

Comments for Public Posting: Thanks to the Los Angeles City Planning Commission to approve Wildlife Ordinance. In future I will also write a working report on total development of the Wildlife Corridor / Santa Monica Mountains (Hillside Ordinance Zone) which Council File: 14-0518 was introduced in 2014. Dear Wildlife Ordinance Stakeholder,

The proposed Wildlife Ordinance (case numbers CPC-2022-3413-CA, CPC-2022-3712-ZC, and ENV-2022-3414-CE) was heard by the Los Angeles City Planning Commission (CPC) at the regularly scheduled meeting on December 8, 2022. The CPC recommended approval of the proposed Wildlife Ordinance with two adjustments responding to resident concerns.

The proposed Wildlife Ordinance aims to reduce cumulative development impacts on plants, animals and natural resources while providing co-benefits related to climate resilience and public health. The Ordinance proposes development standards for lot coverage, floor area, grading and height limitations and as well as native landscaping/trees, fence, trash enclosure, window and lighting requirements. The Ordinance includes regulations that apply to private properties within the District, including additional discretionary review where lots contain or are adjacent to natural resources, such as waterways and open space.

The Letter of Determination (LOD) documenting the CPC action is located [here](#). It is anticipated the proposed Wildlife Ordinance will be scheduled for consideration by City Council committees in early 2023. You may subscribe to receive electronic notifications on upcoming meetings and/or submit public comment directly to the Council File Number 14-0518, by visiting the [Council File Management System](#).

For more information about the Wildlife Ordinance please visit planning4la.org/wildlife.

We appreciate your continued interest in the Wildlife Ordinance.

-The Wildlife Team
