Comments for Public Posting: As a native Los Angelean born and raised in our great city, I strongly support the Wildlife Ordinance and the amendments proposed by Council Districts 4 and 5 to improve connectivity and biodiversity for wild animals who currently struggle to survive in a fragmented habitat. Please adopt this ordinance and expand it to sensitive habitats throughout Los Angeles. Sadly, we don't see the negative impacts of habitat fragmentation until it's too late. Please approve the Wildlife Ordinance before wild animals are only part of our historical landscape. Open space helps us reach our climate change goals and reduces fire risks that mount with irresponsible development.
