Comments for Public Posting: This is an evil bill that will rob hard working Angelenos of their retirement savings. I can not think of anything more despicable than to blatantly steal people's money in this way and dress it up as "saving the animals". I'm sure the intelligent people in our city can come up with a better way to help the animals than annihilating tax payers retirement investments. We can do better as a people and a city!!! This is pure evil towards the hard working citizens of the city... Thank you and I hope you make the right and moral decision.
