Subject: CF 14-0518 Wildlife Ordinance June 20, 2023 PLUM Committee Meeting

To: cityclerk@lacity.org <cityclerk@lacity.org>

PLUM Committee per CF 15-0518,

c/o City Clerk,

Please include the following comment by Grassroots Coalition in its continued support of the proposed Wildlife Ordinance CF 14-0518.

Grassroots Coalition also supports the comment letter from Councilpersons Nithya Raman and Katy Yaroslavsky from the 4th and 5th Districts.

Thank you for the thoughtful effort that has gone into this Ordinance planning and its protective measures for the environment and its wildlife.

Patricia McPherson, Grassroots Coalition

Los Angeles City Council, PLUM Committee, and Los Angeles City Planning

RE: THE PROPOSED DRAFT WILDLIFE ORDINANCE (CF 14-0518)

Dear Honorable Members and Los Angeles City Planning Staff,

I live in the neighborhood right alongside the proposed Wildlife Supplemental Use District ("WLD"), a fully developed and well-established neighborhood, whose homes are primarily smaller 1950's ranch homes on large steep lots with small building pads.

While I recognize the need for protection of Wildlife and Biodiversity and would welcome a well-designed Wildlife Ordinance founded on scientific research, **I do not support *this* Wildlife Ordinance** as it is neither of those.

I urge the PLUM Committee, the City Council, and the Planning Department to respect the will of the affected residents of the proposed WLD, who overwhelmingly oppose the Wildlife Ordinance in its current incarnation, as evidenced by their comments submitted to the Planning Department and the City Planning Commission.

I would strongly prefer that the PLUM Committee reject the current incarnation of the Wildlife Ordinance in its entirety, and direct City Planning to draft a Wildlife Ordinance that relies upon scientific research to better protect Wildlife and Biodiversity without unduly burdening the ordinary homeowner. However, if that will not be done, I wish to express my vehement opposition to the following regulations contained in the current proposed Wildlife Ordinance, and in Councilmembers Yaroslavsky's and Ramen's letter to the PLUM Committee.

1. **I OPPOSE** the failure of the Wildlife Ordinance to promulgate different regulations for undeveloped/pristine lots and those lots which have already been developed.

This failure results in insufficient protections for undeveloped/ pristine land of high habitat and/or biodiversity value, combined with overly burdensome regulation of homes on already developed parcels that have limited habitat or biodiversity value.

2. **I OPPOSE** the proposal put forth by Councilmembers Yaroslavsky and Ramen to reinstate the disallowance of RFA for slopes greater than 60% (aka 31 degrees) contained in Version 2 of the Wildlife Ordinance.

This proposal for a blanket reduction in allowed home size on steeper lots is a classic example of regulatory overkill.

Simply put, there is no nexus between home size, slope steepness, and wildlife habitat destruction where the home is on an already developed parcel with an existing pad, as is the case of the majority of homes in the WLD. Absent additional grading, which is already regulated under other sections of the Wildlife Ordinance, this reduction in allowable home size severely negatively impacts homeowners while providing minimal benefit to wildlife or biodiversity.

Most homes in my neighborhood have slopes greater than 60% (31 degrees), and most of these homes are relatively small in size. Reducing allowable home size for the majority of our residents will prevent needed increases in home size to accommodate growing families, aging parents, and home offices for remote work. The larger homes that exist in our community will be rendered non-conforming, with the attendant mortgage and insurance difficulties.

Moreover, this heavy-handed reduction in allowable home size would only worsen the City's housing shortage. The California Department of Housing & Community Development (HCD) has already warned the City that reducing RFA below its current

level would likely violate California Government Code Section 66300, subdivision (b)(1) (A).

3. **I OPPOSE** the regulation in **Section E(1)(b)** which defines additions of greater than 500sf as a Project under the Wildlife Ordinance.

This 500sf threshold is entirely too low and is applied regardless of the size of the existing home. As a result, it unreasonably burdens the owners of smaller, older homes, such as those that constitute the majority of homes in our neighborhood. Additionally, it encourages homeowners who need more space to sell their homes rather than enlarge them, which is not only detrimental to neighborhood cohesiveness but also has the presumably unintended consequence of increasing the risk that the homes will be bought by developers who will build the largest home they can. At a minimum, additions that would result in homes of less than 3,500sf or 75% of allowed RFA should be exempted from this regulation.

4. **I OPPOSE** the regulation in **Section E(1)(c)** which defines Major Remodels as a Project under the Wildlife Ordinance.

Homeowners with smaller, older homes, similar to most in our neighborhood, will face an unjustifiable burden due to the applicability of the Major Remodel threshold. Bringing these homes up to current standards and building codes significantly increases the likelihood of exceeding the Major Remodel threshold. Consequently, it is crucial to exempt owner-occupied homes of a certain age from this category of Project.

5. **I OPPOSE** the requirement in **Section E(1)(e)** and **Section F.1(f)**, as to non-native trees only, that 2 new trees be planted for the removal of each non-native Significant (aka large) tree.

This regulation poses a significant fire hazard. Section 4906.4.2 of the 2023 California Fire Code (presumably to be adopted by the City in the near future) requires that the dripline at maturity of any newly planted trees be at least 10 feet away from structures and the dripline of other trees. By requiring a two-for-one tree replacement for the removal of large non-indigenous trees, this regulation would require homeowners with small building pads to plant trees that will violate best fire safety practices and fire regulations, or on steeper parts of the property where they cannot be readily maintained in a fire-safe manner.

Further, the native flora in the WLD is primarily chaparral - large native trees are generally only found in riparian areas. While there are many parts of Los Angeles that are in need of additional trees, the WLD is not one of them. A far better approach would be to require homeowners who remove large non-native trees to contribute to a fund dedicated to providing trees to areas where such trees are actually needed, and where

they would not be public safety hazard, or jeopardize a homeowners ability to obtain fire insurance.

Additionally, both the increased fire danger (and the increased bird strikes, as noted in the City's own PAWS report) resulting from this regulation would disallow a CEQA exemption for this Ordinance.

6. **I OPPOSE** the requirement in **Section F.1(f)**, as to non-native trees only, that prohibits grading or construction within the dripline of a Significant (aka large) tree.

Where the dripline of a large non-native tree extends over a home, this regulation would unreasonably interfere with homeowners' ability to remodel their homes. Furthermore, as previously stated, the WLD does not require protection for non-native trees, making this requirement both unnecessary and burdensome..

7. **I OPPOSE** the requirement in **Section F.1(j)** that requires trash cans to be stored in a building or special enclosure.

According to the Los Angeles Municipal Code (LAMC) and the Planning Department, these trash can enclosures would be considered structures and thus prohibited in side and front setback areas. Consequently, they would need to be situated in the central portion of homeowners' backyards. Most homes in our neighborhood are on small pads with small or non-existent back yards, and some back yards are only reachable by stairs. Having odorous and unsightly trash cans enclosures in the middle of our small back yards is untenable, as is dragging them up and down stairs - especially for the elderly or disabled. Storing odorous, insect-attracting trash cans in the garage is equally unacceptable.

Additionally, given that Wildlife intrusion into trash cans stored behind fences on homeowners' properties is extremely rare, and that Wildlife resistant latches are readily available for under \$20, this regulation is wholly unreasonable.

8. **I OPPOSE** the requirement in **Section F.1(j)** for Site Plan Review for homes resulting in greater than 6,000sf.

The 6,000sf threshold is too low. The Planning Department has stated that the *average* new/rebuilt home in the WLD is over 6,000sf, consequently this regulation would require that the *majority* of new/rebuilt homes undergo Site Plan Review.

9. **I OPPOSE** the failure of **Section H.3** to provide for a simplified review process in cases where a Resource is erroneously mapped and does not actually exist in the mapped location and/or where it is clear that the Project would have a negligible impact on the Resource.

The Planning Department has not verified that the Resources are accurately mapped, and the Wildlife Ordinance unreasonably shifts this burden to the homeowner at the significant expense and difficulty of a Site Plan Review and Biological Assessment. See Exhibit 1 for examples.

10. **I OPPOSE** the failure of **Section E.1** to exclude homes destroyed by casualties other than natural disasters (e.g. cooking or electrical fires) from the Wildlife Ordinance regulations.

This failure is entirely unreasonable and will result in homeowners having difficulty obtaining mortgages or refinancing.

11. **I OPPOSE** the failure of **F.1(e)(2)** to utilize R1 and R2 Zoning rather than lot size in determining which parcels are subject to the Wildlife Ordinance's Lot Coverage regulations, and to give an overly generous Lot Coverage allowance to large parcels.

Many RE zoned homes in the WLD are on lots that are smaller than R1/R2 lots. Our neighborhood, although zoned primarily RE-15, has several such lots (e.g. lots of 6,000sf - 7000sf) and these homeowners would be greatly burdened by the application of a 50% Lot Coverage limit to their properties.

This burden on homeowners of smaller parcels is especially galling in the face of the absolute gift to developers of mega-mansions of up to 100,000sf of Lot Coverage for larger parcels. It is these mega-mansion Projects that have a negative impact on Wildlife and Biodiversity, not the small parcel home.

12. **I OPPOSE** the regulation in **Section F.1(c)(2)(i)(a)** to the extent that it would prohibit stairs and decks on slopes greater than 100% (aka 45 degrees).

Prohibiting stairs on these slopes creates a public safety hazard. Prohibiting stairs would render it difficult/dangerous for property owners to reach areas of their property for brush clearance and other property maintenance. Further, this regulation restricts homeowners' access to their own property, and as such constitutes a taking.

Many homes on steeper slopes have very small flat pads and are in neighborhoods with no sidewalks and limited access to recreational areas. Decks provide the opportunity for outdoor living space while leaving the land below the deck available for use by wildlife.

13. **I OPPOSE** Councilmembers Yaroslavsky's and Ramen's proposal to revert to Version 2's inclusion of non-Open Space designated City-owned vacant land in the definition of Open Space.

Per the Planning Department, this change would place Resource Buffers on approximately 1000 adjacent parcels, requiring the owners of those adjacent parcels to undergo expensive and time-consuming Site Plan Review for Projects. The mere fact that the City owns the unimproved parcel does not justify this result, especially where the City itself has declined to designate the parcel as Open Space.

14. **I OPPOSE** the proposal put forth by Councilmembers Yaroslavsky and Ramen to reinstate the disallowance of a basement exemption, contrary to CPC recommendations. I propose basement exemptions that equal the footprint of the ground/main level of the home. This will not affect wildlife or biodiversity and should remain an option to property owners, especially since they are not allowed to utilize SB9 or 10, due to other area conditions.

I sincerely hope that the above explanation of the impacts of just some of the proposed regulations makes clear that the current version of the Wildlife Ordinance is deeply flawed.

Sincerely,

Adeena K. Fitterman

Reply-To: clerk.plumcommittee@lacity.org

To: clerk.plumcommittee@lacity.org, kevin.keller@lacity.org, jarrett.thompson@lacity.org, jenelle.henderson@lacity.org, Councilmember.Yaroslavsky@lacity.org, contactCD4@lacity.org, mayor.helpdesk@lacity.org, cityatty.help@lacity.org, councilmember.harris-dawson@lacity.org, councilmember.rodriquez@lacity.org, cd10@lacity.org, councilmember.Lee@lacity.org

Dear Mayor, Councilmembers, and PLUM Committee Members:

I am a constituent in 90025. I am opposed to the proposed Wildlife Ordinance because:

1. **This proposal does not do what it claims for wildlife, and does much harm to housing.** This ordinance will gravely affect small property owners, not the mega mansion developers they are claiming to be going after, and will not protect wildlife. It will make our housing shortage worse. It will cause more population outflows. And without truly helping wildlife in the region. These new regulations do not work to preserve large open spaces. They don't create corridors between these open spaces that are as free from potential human contact as possible. In fact they do very few things that are actually good for wildlife.
2. **This set of regulations conflicts with State law and policy promoting housing. This is a down-zone, plain and simple, and thus violates State law**—including CEQA, HAA and other rules regarding zoning. It will end up tying the city up in lawsuit knots- for no reason.
3. **This proposal violates due process**—this ordinance has been pushed by bureaucratic insiders. It has yet to be fully vetted or even discussed in an open and honest way. Most people in the hills still don't realize what is happening. There have been no major studies on the environmental, economic and housing impacts of this ordinance. There has been no effort made to track down who will be negatively impacted—and how badly. Instead this ordinance continues to be shuttled around the back hallways of City Hall without being truly and openly debated.
4. **The PLUM Committee must send this ordinance back to the planning department to be fully vetted, to have the parts of the rules removed that don't directly help wildlife and to expand those elements that truly help our wildlife**—by formally designating open areas and plotting out how to connect these habitats and corridors in a way that keeps wildlife out of harm's way (i.e. away from people). These are efforts true wildlife experts have suggested will help LA maintain its unique and wonderful access to nature and save wildlife at the same time..

Good Morning Mayor and Council Members and staff,

Please see attached change.org petition and its 427 signers in STRONG SUPPORT of the proposed wildlife ordinance (CF#14-0518) and Item 19 on today's PLUM Committee meeting, including supporting the measures to strengthen the ordinance by Council Members Raman and Yaroslavsky.

The petition lives here online: <https://chnng.it/vpX5STWW5S>

I hope you all will stand strong against the b.s. being spread around by the avaricious corporate real estate goons. That type of greed and lying is what's going to kill us all.

Why this petition matters

Started by [Lawrence Lincoln](#)

Our beloved Hollywood Mountain Lion, P-22, dodged cars, avoided rodenticide and managed to survive in LA's urban jungle for a decade before old age, ill health and the rest caught up with him. [He died several weeks ago](#) and **we are all mourning his tragic loss.**

But we must not let his passing be in vain. The enormous turnout for the [celebration of his life](#), which apparently even crashed Ticketmaster, shows how much [the City of Angels loved their cougar](#). Congressman [Adam Schiff's suggestion of a postage stamp](#) is great, *but we can do something that actually, really protects our wildlife going forward.*

There is something very important you can do right now to protect all the other mountain lions living quietly in and around the Santa Monica mountain, as well as all the other wildlife we share our urban city with. *It's not just about building bridges across freeways, it's about actively protecting our hillside areas.* [The Los Angeles City Council has brought forward a groundbreaking ordinance to protect the hillsides from overdevelopment](#) in our most urban of cities. That means, if you are building a new house, you should leave a little extra room around your property for wildlife to pass, particularly if you are situated in a known wildlife area. It's simple, it protects our quality of life in the hillsides and canyons (I live in Laurel Canyon), and, best of all, homes near wildlife preserves generally always increase in value. It's a win-win-win all across the board.

[A version of the ordinance weakened by political deal-making was approved](#) by the Los Angeles Planning Commission this past December 2022, now we need to [push hard to get the City Council to re-strengthen the ordinance](#), bring it to Planning committee as soon as possible, and get the whole City Council to approve it and Mayor Bass to sign it.

So, right now, while you're thinking about it:

1) Please sign the petition below calling on the Los Angeles City Council, especially Councilwomen Nithya Raman and Katy Yaroslavsky, to strengthen the wildlife ordinance back to an earlier version, and, most urgently, tell the City Council to approve this ordinance NOW!

2) Also, please [sign the Center for Biological Diversity's excellent action alert](#) which will send emails directly to the Los Angeles City Council.

Share this petition

support. Letters are already in there if you need samples. Demand the City Council strengthen the ordinance back the way it was.

4) Sign up on on the [CLAW \(Citizens for LA Wildlife\)](#) website to get updates and actions you can take.

5) [Sign up here](#) on the LA City Planning page to receive updates on the ordinance.

Dear LA City Planning Commission, and Honorable Council members, and City Attorney Hydee Feldstein,

This email is in regards to The Wildlife Ordinance meeting scheduled this Tuesday June 20th 2pm. I FRIDAY?! This is too short of notice for this public hearing. And this item should be removed from the June 20th meeting agenda.

I'm being notified on a FRiday of a Holiday wknd. this public hearing scheduled for Tuesday June 20th??

I'm a former California City, City Planner. And feel this timeline is not Due Process. I'm in favor of protecting our Wildlife,
but not in favor of reducing square footage, or building envelope for hillside homes, and lots.

I was able to read a letter recently prepared by councilmember Raman, and Yaroslavsky. As a constituent, I am offended that I was not notified of their opinions and suggestions.

I am against all of Nithya Raman, and Newly appointed Councilwoman Katy Yaroslavsky's proposed changes to the draft.

One of their suggestions was to eliminate the 1,000sf exception for basements. And counting this square footage in the overall sf of the home. I am opposed to any square footage of height reductions... **They're suggesting making this ordinance even more RESTRICTIVE and impactful for property owners.**

Too much of this ordinance has been pushed by certain stakeholders, without concern for our property values. This has not been discussed openly with the land owners, and home owners in the hills.

I would like the PLUM committee to send this ordinance back to the planning department to have the parts of the rules removed that don't directly help wildlife. **Two business days notice for this public hearing is absurd.**

Why is there a need for a reduction in allowable square footage for rebuilds, or new construction? **This is a downzoning! disguised as a Wildlife ordinance.**

Most of my neighbors are also against this. How can we be involved in new meetings, discussions on this proposed ordinance?

Thank you for your consideration.
