Council File No: 14-1057-S9

Comments for Public Posting: I strongly support the reinstatement of 85.02, just like I support other motions brought forward by Buscaino. I can only watch in awe that other council members justify the status quo. Find humane solutions that work for the 'transients' and for taxpayers who live in the communities; building new condos by 2025 is not a solution. Get people off the street, find safe parking spaces, safe camping grounds, hotels, tiny homes etc and get tent cities out of densely populated urban areas. We want our city back! LA needs to do what governments are typically not good at, act swiftly. You can't postpone emergencies.
