Council File No: 14-1057-S9

Comments for Public Posting: The City and State receive Billions of taxpayer dollars to get the homeless off the street- what we have gotten for our hard earned money is politician and developer partying, more homeless, more crime, more filth and disease- in favor of building homeless housing that costs more, per unit, than the average taxpayer- who is funding this- can afford to pay- Now this Council proposes just to move the homeless encampments around the City - instead of doing the job you all promised the voters- getting the homeless off the streets-I also don't see anything in this motion as to what will be done to keep these areas from becoming epicenters of crime, drugs, prostitution and garbage dumps- along with all the diseases and vermin these areas attract- This motion is nothing but shameless avoidance and virtue signaling by the City without actually doing anything
