RE: Bulwer Drive (Community Impact Statement)
Council File Item No. 14-1297

Dear Hon. City Council Members:

The Hollywood Hills West Neighborhood Council ("HHWNC") is one of the the certified neighborhood councils in the City of Los Angeles. Bulwer Drive is located within HHWNC's area.

At a meeting of HHWNC's Board on May 20, 2015, the HHWNC Board voted (15-0-0) to approve the following community impact statement with regard to the Bureau of Engineering's proposals to permit paving, grading and drainage on and downslope from Bulwer Drive, which is pending with the City Council as Council File Item No. 14-1297:

HHWNC recommends that the Los Angeles City Council grant the Santa Monica Mountains Conservancy's pending appeal and direct the Department of Public Works to do further environmental analysis of any proposal for road paving, grading or drainage on the Bulwer hillside because the hillside is such an important link in the east-west wildlife corridor through the Santa Monica Mountains.

Very truly yours,

Anastasia Mann, President
