We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

-- *Sent from **Mayur Patel** to **Honorable Sean Starkey** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Sundeep Vaghashia

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Sundeep Vaghashia

On behalf of the LA City Tourism Business Community

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mineshkumar Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amar Patel

On behalf of the LA City Tourism Business Community

-- *Sent from **Amar Patel** to **Council Member Traci Park** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amar Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bhavesh Patel

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Bhavesh Patel*** *to* ***Council Member Hugo Soto-Martinez*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bhavesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitesh Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Orlando Salazar

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Orlando Salazar

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Orlando Salazar*** *to* ***Honorable Jacob Burman*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Krishnu Patel

-- *Sent from* ***Krishnu Patel*** *to* ***Honorable Jacob Burman*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Krishnu Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vijay Amin

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vijay Amin

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nishant Shah

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nishant Shah

-- *Sent from* ***Annette Otte*** *to* ***Honorable Jennifer Barraza*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Annette Otte

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Annette Otte

- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Colin McGinnis

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Colin McGinnis*** *to* ***Honorable Karo Torossian*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Colin McGinnis

-- *Sent from* ***Colin McGinnis*** *to* ***Honorable Patricia Castellanos*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Colin McGinnis

On behalf of the LA City Tourism Business Community

*-- Sent from **Pravin Patel** to **Honorable Lisa Hansen** on May 17, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Pravin Patel

-- *Sent from* ***Pravin Patel*** *to* ***Honorable Ivette Serna*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Pravin Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Christina Davis

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Christina Davis

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mark Goldrup

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mark Goldrup

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jack patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jack patel

-- *Sent from* ***Chetna Hajari*** *to* ***Honorable Jeanne Min*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Chetna Hajari

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Chetna Hajari

On behalf of the LA City Tourism Business Community

-- *Sent from **Priti Patel** to **Council Member Bob Blumenfield** on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Priti Patel

*-- Sent from **Priti Patel** to **Honorable Marisa Alcaraz** on May 17, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nipa Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nipa Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jay Desai

On behalf of the LA City Tourism Business Community

-- *Sent from **Jay Desai** to **Council Member Paul Krekorian** on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jay Desai

On behalf of the LA City Tourism Business Community

*-- Sent from **Jay Desai** to **Honorable Heather Hutt** on May 17, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dipak Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dipak Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dipak Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dipak Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nina Patel

-- *Sent from* ***Nina Patel*** *to* ***Honorable Kimani Black*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nina Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
ALKA Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
ALKA Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hector SantaCruz

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hector SantaCruz

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Luz Orozco
