The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Tess Dunne

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses

- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Tess Dunne

On behalf of the LA City Tourism Business Community

*-- Sent from **Tess Dunne** to **Honorable Josh Nuni** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Tess Dunne

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Aaron Olson

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Aaron Olson

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kevin McDermott

- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kevin McDermott

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

-- *Sent from* ***Phillip Joseph*** *to* ***Council Member Traci Park*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Phillip Joseph

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Phillip Joseph

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amit patel

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amit patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Anna Chung

On behalf of the LA City Tourism Business Community

-- *Sent from **Anna Chung** to **Council Member Eunisses Hernandez** on May 16, 2023*
--

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Anna Chung

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Anna Chung

On behalf of the LA City Tourism Business Community

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Brock Taylor

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Brock Taylor

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amy Salvago

On behalf of the LA City Tourism Business Community

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amy Salvago

Council File No: 14-1371-S13

Comments for Public Posting: 14-1371-S13_LA Tourism & Jobs Coalition_Letters to Council_Pt2 Dear Council – The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers. We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees. This motion was put forth without any consideration for or consultation with the small businesses it will directly impact. This council action will immediately force businesses to: - Implement technology to reduce operational costs. - Raise consumer prices to absorb sudden and devastating increased operating cost. - Stop future development and improvements of existing facilities. - Limit services that customers and guests depend on. - Shutter locations. The pandemic was devastating for both employees and business owners. The motion put forth is a wholly inaccurate description of post-pandemic business recovery. 1. We ask the city to perform the required outreach to all impacted business stakeholders. 2. We request council action to initiate a 3rd party independent economic impact analysis to account for: - Impact to businesses - Impact to the tourism ecosystems - Impact to future development - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase We look forward to collaborating with you to develop sustainable public policy that works for all. Signed, LA City Tourism Business Community.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Elizabeth Zepeda

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Elizabeth Zepeda

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dave Dent

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dave Dent

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
young chung

-- *Sent from **young chung** to **Honorable Solomon Rivera** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
young chung

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bronte' Nersessian

-- *Sent from **Bronte' Nersessian** to **Honorable Aaron Ordower** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitesh Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

-- *Sent from* ***Hitesh Patel*** *to* ***Honorable Star Parmasyan*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitesh Patel

   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Gary Obert

On behalf of the LA City Tourism Business Community

*-- Sent from **Gary Obert** to **Honorable Jeanne Min** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Gary Obert

-- *Sent from* ***Satish Patel*** *to* ***Council Member Bob Blumenfield*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Satish Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Satish Patel

On behalf of the LA City Tourism Business Community

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bhavin Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bhavin Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
BIDY SYARIF

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
BIDY SYARIF

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kelly Kolla

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kelly Kolla

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
SUE TROBAUGH

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
SUE TROBAUGH

On behalf of the LA City Tourism Business Community

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
S. Sugarman

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
S. Sugarman

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Grant Coonley

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Grant Coonley

- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Carolyn Harber

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Carolyn Harber*** *to* ***Council Member Traci Park*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Carolyn Harber

- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Carolyn Harber

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Carolyn Harber*** *to* ***Honorable Andrew Westall*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Carolyn Harber

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Sean Kumar

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Sean Kumar

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jagdish Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jagdish Patel

On behalf of the LA City Tourism Business Community

*-- Sent from **Bharat Bhakta** to **Council Member Eunisses Hernandez** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bharat Bhakta

-- *Sent from* ***Bharat Bhakta*** *to* ***Honorable Jacob Burman*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bharat Bhakta

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bharat Bhakta

-- *Sent from* ***Bharat Bhakta*** *to* ***Honorable Patricia Castellanos*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bharat Bhakta

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ravi Patel

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ravi Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.

- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Gazi shahjahan

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Gazi shahjahan

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.
