Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Luz Orozco

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Raj Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Raj Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hemant Patel

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Hemant Patel*** *to* ***Honorable Helene Rotolo*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hemant Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitendra Patel

-- *Sent from* ***Hitendra Patel*** *to* ***Honorable Helene Rotolo*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitendra Patel

-- *Sent from* ***Paresh Patel*** *to* ***Council Member Eunisses Hernandez*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Paresh Patel

-- *Sent from* ***Paresh Patel*** *to* ***Honorable Jacob Burman*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Paresh Patel

-- *Sent from* ***Paresh Patel*** *to* ***Honorable Karo Torossian*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Paresh Patel

-- *Sent from* ***Paresh Patel*** *to* ***Honorable Patricia Castellanos*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Paresh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Priya Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Priya Patel

-- *Sent from* ***Urvashi Patel*** *to* ***Honorable Jennifer Barraza*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Urvashi Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Urvashi Patel

- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kanuja Champaneri

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kanuja Champaneri

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rocky Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rocky Patel

-- *Sent from* ***Jayshree Patel*** *to* ***Honorable Lisa Hansen*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jayshree Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jayshree Patel

Ashish patel

On behalf of the LA City Tourism Business Community

-- *Sent from **Ashish patel** to **Honorable Solomon Rivera** on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ashish patel

-- *Sent from **Ashish patel** to **Council Member Katy Young Yaroslavsky** on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ashish patel

Dilipkumar Patel

On behalf of the LA City Tourism Business Community

-- *Sent from **Dilipkumar Patel** to **Honorable Rachel Brashier** on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dilipkumar Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dilipkumar Patel

-- *Sent from* ***Bhavesh Patel*** *to* ***Honorable Hannah Lee*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bhavesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bhavesh Patel

JIGNESH PATEL

On behalf of the LA City Tourism Business Community

*-- Sent from **JIGNESH PATEL** to **Honorable Jeanne Min** on May 17, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
JIGNESH PATEL

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Charles Bassett

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Charles Bassett

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Maria Ali

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Maria Ali

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Joe Titizian

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Joe Titizian

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Joe Titizian

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Joe Titizian

Lisa Smith

On behalf of the LA City Tourism Business Community

-- *Sent from **Lisa Smith** to **Council Member Nithya Raman** on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Lisa Smith

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Lisa Smith

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Anand Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Anand Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitesh patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitesh patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kaushal Prince

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kaushal Prince

-- *Sent from* ***Israel Mora*** *to* ***Council Member Traci Park*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Israel Mora

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Israel Mora

-- *Sent from* ***Minakshi Dahya*** *to* ***Council Member Hugo Soto-Martinez*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Minakshi Dahya

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Minakshi Dahya

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Marco Perry

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Marco Perry*** *to* ***Council Member Tim McOsker*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Marco Perry

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Marco Perry

Joe Patel

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Joe Patel*** *to* ***Council Member Eunisses Hernandez*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Joe Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Joe Patel

-- *Sent from* ***Stanley Wang*** *to* ***Honorable Curtis Earnest*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Stanley Wang

-- *Sent from* ***Stanley Wang*** *to* ***Honorable Gary Gero*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Stanley Wang

-- *Sent from* ***Bernard Philippe*** *to* ***Honorable Andrea Conant*** *on May 17, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Bernard Philippe
