On behalf of the LA City Tourism Business Community

-- *Sent from* ***Gazi shahjahan*** *to* ***Honorable Jennifer Barraza*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Gazi shahjahan

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Gazi shahjahan

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dan Patel

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dan Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nella McOsker

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Nella McOsker

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rakesh Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rakesh Patel

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Rakesh Patel*** *to* ***Honorable Patricia Castellanos*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mark Beccaria

- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mark Beccaria

On behalf of the LA City Tourism Business Community

*-- Sent from **Mark Beccaria** to **Honorable Ivette Serna** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mark Beccaria

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ankita Patel

On behalf of the LA City Tourism Business Community

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ankita Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Robert Kovacs

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Robert Kovacs

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vimal Desai

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vimal Desai

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Sanjay Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Natalee Moore

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Natalee Moore

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Manish Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Manish Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Kiran Patel

On behalf of the LA City Tourism Business Community

*-- Sent from **Kiran Patel** to **Honorable John Popoch** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kiran Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kam Patel

- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kam Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

Rakesh Patel

On behalf of the LA City Tourism Business Community

*-- Sent from **Rakesh Patel** to **Council Member Monica Rodriguez** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rakesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rakesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dilan Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dilan Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Abhisheek Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Abhisheek Patel

On behalf of the LA City Tourism Business Community

-- *Sent from* ***Abhisheek Patel*** *to* ***Honorable Curtis Earnest*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Abhisheek Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Abhisheek Patel

-- *Sent from* ***Yash Desai*** *to* ***Council Member Hugo Soto-Martinez*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Yash Desai

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Yash Desai

On behalf of the LA City Tourism Business Community

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jayesh Kumar

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jayesh Kumar

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Silvano Merlo

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Silvano Merlo

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mr Patel

- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mr Patel

On behalf of the LA City Tourism Business Community

*-- Sent from **Mr Patel** to **Honorable Nate Hayward** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Daxa Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Daxa Patel

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dinesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dinesh Patel

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
jean bozarth

-- *Sent from **jean bozarth** to **Honorable Rachel Brashier** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
jean bozarth

Rinkesh Patel

On behalf of the LA City Tourism Business Community

*-- Sent from **Rinkesh Patel** to **Honorable Hannah Lee** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rinkesh Patel

Rinkesh Patel

On behalf of the LA City Tourism Business Community

*-- Sent from **Rinkesh Patel** to **Honorable Star Parmasyan** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rinkesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mitul patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
austin apple

- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
austin apple

-- *Sent from **austin apple** to **Honorable Brenton Tesler** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jig Patel
