Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jig Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ricky Patel

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dharmesh Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dharmesh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ashish Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ashish Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rajan Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rajan Patel

-- *Sent from* ***Kamal hira*** *to* ***Council Member John Lee*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kamal hira

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kamal hira

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kamal hira

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Kamal hira

On behalf of the LA City Tourism Business Community

*-- Sent from **Hasmukh Patel** to **Council Member Kevin De LeÃ³n** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hasmukh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hasmukh Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
VIPUL Dayal

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vinod patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vinod patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
anil patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
anil patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dave Williams

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dave Williams

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Shane Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Shane Patel

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Riley Wood

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Riley Wood

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Shyam Lalu

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Shyam Lalu

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Prakash Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Prakash Patel

-- *Sent from* ***Hitendra Bhakta*** *to* ***Honorable Jennifer Barraza*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitendra Bhakta

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Hitendra Bhakta

Amit Patel

On behalf of the LA City Tourism Business Community

-- *Sent from **Amit Patel** to **Honorable Karo Torossian** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amit Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Amit Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Sandra Balerdi

- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Sandra Balerdi

On behalf of the LA City Tourism Business Community

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Raj Patel

On behalf of the LA City Tourism Business Community

-- *Sent from **Raj Patel** to **Honorable Solomon Rivera** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
- Impact to businesses
- Impact to the tourism ecosystems
- Impact to future development
- Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Raj Patel

Ashish Patel

On behalf of the LA City Tourism Business Community

-- *Sent from **Ashish Patel** to **Honorable Rachel Brashier** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ashish Patel

-- *Sent from* ***Ashish Patel*** *to* ***Honorable Aaron Ordower*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ashish Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
David Romero

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
David Romero

-- *Sent from* ***Ray Patel*** *to* ***Honorable Jeanne Min*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Ray Patel

-- *Sent from* ***Rupal Patel*** *to* ***Council Member Bob Blumenfield*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rupal Patel

-- *Sent from* ***Rupal Patel*** *to* ***Honorable Marisa Alcaraz*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Rupal Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jignesh Patel

-- *Sent from* ***Jignesh Patel*** *to* ***Honorable Marisa Alcaraz*** *on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Jignesh Patel

Vimal Patel

On behalf of the LA City Tourism Business Community

*-- Sent from **Vimal Patel** to **Council Member Marqueece Harris-Dawson** on May 16, 2023 --*

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vimal Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vimal Patel

-- *Sent from **Vimal Patel** to **Council Member Kevin De LeÃ³n** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vimal Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Vimal Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dipak Bhakta

On behalf of the LA City Tourism Business Community

   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dipak Bhakta

On behalf of the LA City Tourism Business Community

-- *Sent from **Dipak Bhakta** to **Honorable John Popoch** on May 16, 2023* --

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Dipak Bhakta

- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
   - Impact to the tourism ecosystems
   - Impact to future development
   - Impact to the city budget to implement a city-staff $25-$30 minimum wage increase

We look forward to collaborating with you to develop sustainable public policy that works for all.

Signed,
Mayur Patel

Dear Council:

The tourism industry is a major economic engine in the City of Los Angeles, with over 528,198 Angelenos who work in tourism-related careers.

We know the value of our employees and that is why the tourism business community is proud of the competitive wages and benefits we provide for our employees.

This motion was put forth without any consultation with or consideration of the small businesses it will directly impact. This motion targets family-owned small businesses and will not cover essential workers like city staff, teachers or even UniteHere's own employees.

This council action will immediately force businesses to:

- Implement technology to reduce operational costs.
- Raise consumer prices to absorb sudden and devastating increased operating cost.
- Stop future development and improvements of existing facilities.
- Limit services that customers and guests depend on.
- Shutter locations.

The pandemic was devastating for both employees and business owners.

The motion put forth is a wholly inaccurate description of post-pandemic business recovery.

1. We ask the city to perform the required outreach to all impacted business stakeholders.

2. We request council action to initiate a 3rd party independent economic impact analysis to account for:
   - Impact to businesses
