City Councilmembers,

Dear Councilmember O'Farrell,

Affordable housing across LA has been lost to short-term rental platforms like Airbnb. In one community in your district, a single landlord has allegedly converted several rent-controlled housing units in the neighborhood into illegal short-term rentals.

These properties are rent-controlled and should be available as affordable housing for Angelinos and their families. Conversion of rent-controlled housing into short-term rentals is a violation of the law.

Neighbors have complained multiple times yet the violations continue. Councilmember O'Farrell, you have the power to stop violators of the Home Sharing Ordinance to protect our housing.

I urge you to shut down illegal short-term rentals and enforce the law for your constituents now!
