Comments for Public Posting: Correct me if I'm wrong but spending money on body cameras will result in an increase in police funding, not a decrease. We asked you to DEFUND POLICE, not put cameras on them to film the brutality we all already know about. Is this really the best way to hold LAPD accountable? If you really want and need to do this, take funding out of some other area in the department, like oh, I don't know, weapons? We did not tell you we wanted minuscule reforms. We told you we wanted to defund the police.
