Subject: CF 15-0135 - Planning's CCU Fee Ordinance to sup
(Monitoring, Verification & Inspection Program)

Good day Sharon,

Please place the following in the record for
CF 15-0135 - Planning's CCU Fee Ordinance to support MVIP (M
Verification & Inspection Program)

Thank you.

Vanessa

Greetings PLUM committee members,

As a civic minded and engaged resident of Los Angeles. I whole
heartedly support CF 15-0135 - Planning's CCU Fee Ordinance to
(Monitoring, Verification & Inspection Program) which includes fe
City Planning's Condition Compliance Unit to expand its current s
monitoring of the conditional use conditions placed on a project (

The existing "complaint" driven system has proven itself inadequa
compliance with these required conditions.

This ordinance allows the proactive monitoring of applicants and
during hours of operation; actively assisting applicants/operators ;
owners' implementation and compliance with the conditions place

The overall effect of this proactive approach will create a better c
social environment. creating responsible community partners and
situations that would lead to complaints and/or noncompliance.

Best regards.
