MOTION

The Department of Transportation (DOT) operates its Communication Center (Center) at a facility located at 12544 Saticoy Street, in North Hollywood. The Center provides a vital city service in the effective and efficient enforcement of City parking enforcement, traffic management and public safety.

This Center is part of a series of City governmental facilities that deliver necessary public safety services to residents, businesses and visitors. It is appropriate that this facility be able to display flags representing the United States of America, the State of California and the City of Los Angeles. At this time, however, a flag pole has not been installed at the site.

It is appropriate that the Department of General Services and DOT work to facilitate this installation of a flagpole at the Saticoy location.

I THEREFORE MOVE that the Department of General Services, with the cooperation and assistance of the Department of Transportation, be instructed to take the steps necessary to facilitate the installation of a flagpole at the Los Angeles Department of Transportation Communication Center at 12544 Saticoy Street in North Hollywood.
