Dear Mr. Lid:

HELP and CCLA previously submitted the attached on or about May 24, 2015, but it does not appear in the public record for council number 15-0719 nor did the city make a subsequent response, although the City did (inadequately) respond to our submission about the toxic dangers of bike lanes on major boulevards and avenues.

As you will see, the submission was made to Ms. My La, James Williams and Claire Bowin.

HELP's and CCLA's May 24, 2015 submission was extremely important as it shows that the entire Mobile Plan 2035 is based on fatally flawed data. Perhaps, there is another list of public records other than those comments shown under council file # 15-0719. The council file number was not available when we made our May 24, 2015 submission, but all comments on MP 2035 should have followed it through all phases of the administrative process.

Please be so kind as to add HELP's and CCLA's May 24, 2015 letter to the public record **along with a copy of this email**. We are double checking to see whether other submissions are also missing.

Thank you in advance for your attention to this matter.

Rick Abrams
