

MOTION

The federal government recently announced the formation of a new taskforce focused on the 2028 Olympic and Paralympic Games. The creation of this taskforce raised questions about its scope, responsibilities, and how its work will intersect with the City's ongoing preparations for the Games.

Given that Los Angeles will be the host City, it is critical that the Council, and the public, understand the role of the taskforce and how it will coordinate with local stakeholders. It is also critical that the City remain steadfast in protecting and uplifting our own communities, particularly our most vulnerable communities, such as our undocumented residents who may be directly or indirectly affected by heightened security measures or federal engagement. Clarity is needed on issues such as public safety, transportation, infrastructure, and community engagement, as well as how federal, state and local responsibilities will align in advance of the Games.

LA28, is uniquely positioned to brief the Council on the establishment of the federal taskforce and provide transparency regarding its role, and how it will align with Los Angeles' priorities for safety and community trust.

I THEREFORE MOVE that the City Council REQUEST LA28 to provide a detailed presentation on the new federal Olympics taskforce, its purpose, jurisdiction, anticipated activities, and the implications for the City's planning and preparation for the 2028 Olympic and Paralympic Games. This should also include guidance on what guardrails the City can enact to ensure that the City's most vulnerable communities are protected.
