

AD - L&G

AMENDMENT (ITEM 3)

3 C

I MOVE that the City Council INSTRUCT the City Administrative Officer (CAO) and Chief Legislative Analyst (CLA), and REQUEST the City Attorney to revise the Enhanced City Resources Master Agreement (ECRMA) as follows:

- Ensure that all references to Enhanced City Resources (such as in Sections 3.3.2, 3.3.3, and elsewhere) make clear that *both* public safety *and* non-public safety Enhanced City Resources are to be factored into all Venue Service Agreements (VSA) or other agreements as called for in the ECRMA, regardless whether a location is a “NSSE Identified Venue”, a “Non-NSSE Identified Venue” or outside of an established Games Footprint. For sake of clarity, while certain Enhanced City Resources expenditures may end up being reimbursable by the State or Federal government, that does not absolve the responsibility of the OCOG (Los Angeles Organizing Committee for the Olympic and Paralympic Games 2028) to cover said Enhanced City Resources.
- Ensure under Section 3.7 and elsewhere that the City of Los Angeles can also identify any further locations that will require the delivery of Enhanced City Resources.
- Ensure that the ECRMA clearly states (in Section 10.6 and elsewhere as necessary) that no Surplus will go to the Legacy Entity until all the OCOG and City (the “Parties”) expenditures have been covered, including full reimbursement for the City for all Enhanced City Resources and supplemental services and/or all Dispute Resolution processes have been fully determined and concluded and all amounts due to the City as a result thereof have been fully paid.
