63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

Denise Schuline

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**

   ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**

   ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**

   ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

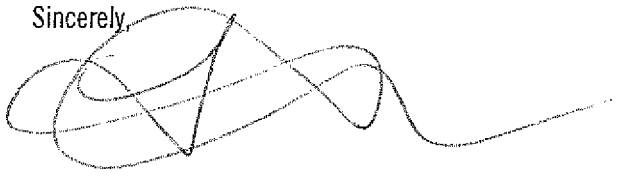

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

Brady Aviles

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**

   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

David L James

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**

   ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**

   ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**

   ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**

   ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**

   ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**

   ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

#HomeWalk Advocacy Crew

Would you like to sign a letter to our City and County leaders in support of solutions to homelessness?

PURPOSE: For the first time, the City and County are preparing to fund homeless interventions. This letter will make sure that these investments are substantial and directed towards solutions we know work!

GOAL: This is the most important HomeWalk petition letter we have ever had. For that reason we have doubled our goal for signed letters this year to 2,000 (~100 petitions/volunteer).

TARGET: Though anyone can sign, your targets will be participants that live or work in Los Angeles County and are over 17 years old. Don't ask ages, again it is not a requirement to sign!

FAQs

What is this about?

For the first time, the City and County are preparing to fund homeless interventions. This letter will make sure that these investments are substantial and directed towards solutions we know work!

If I have already signed do I need to sign again? Is this different?

If you already signed the letter with one of our other volunteers onsite at HomeWalk today you are all set. Thank you so much for supporting ending homelessness in Los Angeles!

Why do you need my city and zip code?

For the first time, the City and County are preparing to fund homeless interventions. This letter will make sure that these investments are substantial and directed towards solutions we know work!

Who will this be shared with?

For the first time, the City and County are preparing to fund homeless interventions. This letter will make sure that these investments are substantial and directed towards solutions we know work!

MAKE SURE TO

- Be kind and respectful to everyone you talk to!
- THANK everyone whether they decline to sign or not.
- Get genuine signatures!
- If someone declines, ask "can I ask why you prefer not to sign?" and note their response so we can make adjustments in the future related to their concerns, and share with them other ways they can advocate today.

DOING MORE

- Encourage them share on social media that they signed the letter and to call on others to do the same using the official event hashtag, #HomeWalk
- Sign up to volunteer the last week of January for the 2016 Homeless Count

they have more detailed questions about the City and County planning process or the details of the policy request, please direct them to the United Way Information Booth where a housing staff member, Zahirah Mann, will be available to answer any specific questions.

Make sure to check-out with Greg Johnson and at the Volunteer tent before leaving!

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

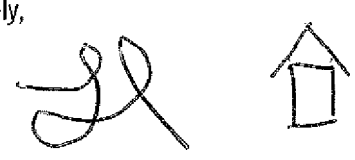

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**

   ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**

   ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**

   ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

Paige Upman

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.

   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**

   ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

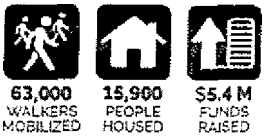

Sincerely,

   ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**

   ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

Alicia Sandez

   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

Grace Sanchez

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.

To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

Skolstad

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.

   ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help END homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help PREVENT homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help RESPOND to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.

As you move forward on these items, please investigate all possible sources of funding, including taxes & tax credits, fees, and bonds. But we'd also ask that you focus on outcomes and not just spending. We urge you to establish clear public measurements that allow us to transparently track progress toward the goal of ending homelessness.

Thank you for taking these historic steps forward for our community and its most vulnerable residents.

Sincerely,

63,000 WALKERS MOBILIZED | 15,900 PEOPLE HOUSED | $5.4 M FUNDS RAISED

November 21, 2015

To Our County and City Elected Leaders,

I'm here at United Way's HomeWalk to celebrate the tremendous progress that's been made in our work to end homelessness and to do my part to continue that momentum. In the last 5 years, Home For Good partners have housed over 24,000 of our most vulnerable neighbors, yet we still see the numbers sleeping on our streets climbing. To truly solve this crisis, we must invest significant new resources and policies to prevent and end homelessness.

As the County and City chart out their strategies to respond to this crisis, we urge you to keep sight of our ultimate goal of ending homelessness. The following investments will be a critical first step to get us there:

1. **Help <u>END</u> homelessness by providing the 40,000+ rental subsidies and supportive services that will move our homeless neighbors into permanent housing.**
   - ☑ Take a critical first step by dedicating at least $100 million per year in new funding at the County and at least $100 million per year in new funding at the City for these permanent solutions.

2. **Help <u>PREVENT</u> homelessness by closing the gap of 500,000+ additional housing units we need to make housing more affordable.**
   - ☑ Take a critical first step by dedicating at least $100 million a year in new County funds and $100 million a year in new City funds to construct and maintain affordable housing.
   - ☑ Ensure a significant portion of affordable housing serves people experiencing homelessness and extreme poverty.
   - ☑ Allow for more density, and streamline the approvals required to build additional housing.

3. **Help <u>RESPOND</u> to the immediate crisis by reducing stigma that stands in the way of real solutions.**
   - ☑ Champion the siting of affordable and permanent supportive housing developments in your district.
   - ☑ Reduce restrictions that prevent our homeless neighbors with prior offenses from receiving housing vouchers.
   - ☑ Pursue engagement rather than arrests of our homeless neighbors for eating, sitting, or sleeping in public areas.
