**Comments for Public Posting:** I am writing on behalf of the 54 faith communities who are partners in the Interfaith Solidarity Network. We are in strong support of Items 28 & 29, ( Hiring and Workforce Plan & the LA 100 / Strategic Long Term Resource Plan / 2035 100% Carbon-Free Energy / Los Angeles Department of Water and Power). The task of achieving 100% clean renewable energy with high road jobs by 2035 is hard. It will require a lot of work and you will face a lot of opposition. But there could hardly be a more urgent action of such moral clarity than voting "Aye" on these two items. With your votes, affirm that we need to begin to transition from the extractive economy now. Make a decision today that care for our common home, the Earth, starts with climate justice for L.A. Our clean energy future is now! Thanks for all that you do for the people of Los Angeles. -Daniel Tamm, Chair, Interfaith Solidarity Network ([www.interfaithsolidaritynetwork.org](http://www.interfaithsolidaritynetwork.org))
